# Build and manage ML

models

with watsonx.ai Studio

watsonx.ai Studio is a service that you use to build, deploy, and manage AI models and to optimize decisions.

Work within a project to build models. Customize how you work by choosing from notebooks, graphical canvases, and no-code tools.

#### **Get started**

### Sample project

Open a sample project with pre-built watsonx.ai Studio assets.

#### New project

Next

Create a project and then add your own data to get started.

## Projects / Sample superstore / SampleSuperstore.csv / Data Refinery

6

 $\bigcirc$ 

Steps (1) ×

Data source

1. Convert column type

SampleSuperstore.csv

Automatically converted one or more columns to inferred data types. Strings that are converted to decimal use a dot (.) for the decimal symbol.
